

## Williams Mullen moves up to 124th in the U.S. for Pro Bono legal services

**07.06.2011**

In these hard economic times, money is not as easy to come by, and subsequently many people cannot afford attorneys. Here at Williams Mullen giving back to our communities is important, and our attorneys have contributed an average of nearly thirty hours of Pro Bono, or free legal services to the communities we serve. Moreover, twenty-nine percent of our three-hundred attorneys provided more than twenty hours of Pro Bono work. Because of this commitment, we are proud to have jumped from 145th in the nation a year ago to 124th in the nation today for Pro Bono service. A link to the 2011 Pro Bono report can be found [here](#).
