

Bring Your Own Device (BYOD) to Work

08.02.2012

Now more than ever, Smart Phones, Tablets and Laptops are being utilized by the mobile workforce. And most professionals find themselves carrying multiple devices to keep up with their work and personal activities.

Business leaders are faced with the challenge of either providing the latest and greatest, or integrating the personal devices that their employees are bringing with them, all to make them more efficient. This panel will feature leaders discussing how they are addressing the Bring Your Own Device policy.

Panelists:

Moderator: Rob Van Arnam, Partner - Williams Mullen

Todd Bolon, SVP of IT - CARQUEST Auto Parts

Tim Campbell, IT Director - SAS

Jake Kent, President & CEO - JCMR Technology

Shawn Pate, Sr. IT Consultant - WorkSmart
