

PACE (Property Assessed Clean Energy) Financing - Growth for Renewables and Energy Efficiency

06.16.2010

Topic

Property Assessed Clean Energy (PACE) financing is a trend sweeping the country, already adopted by 20 states--red and blue--in all parts of the US. and being promoted by the Vice President's Middle Class Task Force. Its significance for future renewable energy developments extends in four key directions as a source of new growth as:
