

## Climate Change Policy & Carbon Finance Update

**03.01.2009**

On March 10, 2009, USEPA issued a massive proposed rule to require reporting of greenhouse gas ("GHG") emissions. Set forth in 800 pages of explanations and 600 of regulations, the proposal will require over 13,000 facilities and companies to report their annual GHG emissions starting in 2011.
