

## Exclusive Opportunity for Williams Mullen Clients: Custom Seminar on Managing Sexual and Gender Diversity in the Workplace

05.13.2016

At Williams Mullen, we understand that a diverse and inclusive workplace makes us better at what we do – serving our clients and our communities. Our diversity and inclusion efforts are spearheaded by our Diversity Committee and affinity groups (Attorneys of Color, LGBT Initiative and Women's Initiative).

As part of our value-add client services initiative, we are offering to present a diversity-focused webinar/seminar titled, *Managing Sexual and Gender Diversity in the Workplace*, to your human resources and/or management teams.

Our presenting team brings together attorneys from our Labor & Employment and Employee Benefits practice groups. This seminar will help raise awareness and educate attendees on a variety of issues including: current state and federal laws preventing discrimination; employee benefits implications; practical steps with updating corporate policies; and the role of human resources and management when navigating a range of diversity matters.

Please contact [Laura Windsor](#) for more information about providing this presentation to you and your colleagues.
