

Williams Mullen's Environment & Natural Resources Group to Serve as Virginia Manufacturers Association's Air Regulation Legal Counsel

09.07.2018

On Sept. 4, 2018, the Virginia Manufacturers Association (VMA) announced that they had selected Williams Mullen's Environment & Natural Resources Group to take over as their Air Regulation Legal Counsel. The firm will replace Dr. Tom Knauer, who served in the role for 26 years, effective Nov. 1, 2018. Channing Martin, chair of the firm's environmental group, will be joined by partners Jay Holloway and Liz Williamson on the team serving the VMA.

VMA's Air Regulation subcommittee tracks "key issues and, as necessary, actively advocates VMA's positions through legal filings on regulations and rules with the Virginia Department of Environmental Quality, U.S. Environmental Protection Agency and Courts."
