

Webinar: Land Use and Permitting Utility Scale Solar Projects in Virginia

04.30.2019

As the number of solar projects has increased in Virginia, developers are confronting a more challenging environment in securing land use and zoning approval for their utility scale solar projects. Join Williams Mullen for our solar webinar series on **Tuesday, April 30, from 11:00 ? 11:35 am (EST)**, where we will discuss recent trends and emerging issues in siting utility-scale solar projects in Virginia.

The webinar will be hosted by **Brad Nowak** and **Bob Riley**, co-chairs of Williams Mullen's Solar Energy team, who will be joined by Williams Mullen's land use partners, **Grady Palmer** and **Steve Romine**.

What you will learn about:

- Solar project ordinances and policies
- Decommissioning plans and bonds
- New Virginia solar decommissioning legislation (SB 1091), including decommissioning agreements
- Negotiating SUP/CUP conditions, including cash payments to local governments
- Community engagement
- Public opposition to solar projects
- What happens if my SUP/CUP is approved / denied?
