

Digital Assets: The Forgotten Part of Your Estate Plan

09.12.2019

Presented by BB&T Wealth and Williams Mullen

In today's modern world, people are acquiring digital assets such as email, photos, online financial accounts (including banking and retirement accounts), social media profiles and other applications with business interests at an increasing rate. As a result, most estate plans are out of date and need to employ new strategies in order to pass these assets efficiently and protect loved ones. Please join us to learn how digit assets are treated under current estate law and the steps to follow to modernize your estate plan.
