

Electric Cooperatives

Our Electric Cooperatives Practice provides specific advocacy and advice for electric cooperatives. With nearly 30 years of experience in the industry, our team understands the unique challenges faced by electric cooperatives. We provide timely, seasoned advice on regulatory, transactional, legislative and corporate governance matters. Our deep experience working within the unique ownership and governance structure of cooperatives informs and enhances our legal services in every transaction, project and proceeding on behalf of our co-op clients.

The Electric Cooperatives Practice works closely with attorneys from across the firm's practice areas, including litigation, environmental, corporate, real estate and land use, renewable energy and government relations.
