

Janet Cho and Jen McLemore Help Middle School Robotics Team Prepare for Houston Lego Competition

02.10.2022

Janet Cho and Jen McLemore helped the Saint Bridget Middle School Robotics Team (Clueless Robotics) of Richmond, Va prepare for the World First Lego Robotics Competition, which will be held in Houston, Texas in April.

Janet helped the team understand the potential patent and trademark issues related to their Innovation Project, the Bus Box, which will help commercial delivery services with last-mile deliveries using school buses that are not in use in the middle of the day. Jen helped the team navigate the process of changing certain applicable laws with the Virginia General Assembly.
